

## PLANTING SEEDS OF CHANGE: GROWING WILD IDEAS

There's a movement happening in the Elk Valley and Wildsight is proud to be a part of it. With every new relationship, moment in nature, and opportunity to share, we're seeing our work inspire our supportive community. At Wildsight's Elk Valley Branch we're focusing on keeping the 'farm to fork' conversation at the table. You can learn more about our current projects, and upcoming events below. We'd love to hear your ideas. Speak your mind: [elkvalley@wildsight.ca](mailto:elkvalley@wildsight.ca)

### **Wildsight Elk Valley at the Mountain Market**

Connect with us every Sunday in July and August from 10am-2pm at the Mountain Market in Rotary Park, Fernie BC. We'll be sharing our work, finding out what's inspiring our community to cultivate a sustainable Elk Valley, and protect our wild spaces. We can't wait to hear from you.

### **Wild Nature Tours**

Whether you're a visitor or a resident, Wild Nature Tours has a guided adventure for you. Our guides offer safe access to the best hikes in the region accompanied by local insights, cool facts about

plants and wildlife, as well as colourful stories about our past. You'll get breathtaking views, while creating lasting memories in a group or private setting. Book now at [wildnaturetours.ca](http://wildnaturetours.ca).

### **Project Apple Capture and Tool Share**

Elk Valley Apple Capture connects people with apples, so apples feed families, not bears. Got apples? Want juice? Want apples?

When fruit is left to fall off the trees and rot, it attracts local wildlife—including deer and bears. Wildsight's Apple Capture is here to help you keep up with your fruit harvest or to share it with someone who can. Together, we can turn a wildlife attractant into healthy local food. You can:

- Borrow our fruit picking and apple pressing and other equipment from the Tool Share.
- List your tree at [facebook.com/fernieapples](https://www.facebook.com/fernieapples) if you need help picking and connect with others who want apples.
